

Thank you for your interest in being my apprentice. At this time my life is very full and I have little time for teaching. A space might open up in the future where I, or one of my advanced apprentices, will be able work with you. You can fill out the attached application and I will keep it on file for a time when it may be possible to help you on your creative path.

To apply, please furnish the following information:

- 1) A brief letter describing your life experiences, your education and your relationship to art and jewelry. Also, tell what you would like to learn from me, and what skills you have that you could contribute to my studio or the forty acre ranch that I maintain along with the Earth and Sky Circle temple.
- 2) A photograph of yourself and of any artwork you have done.
- 3) Two names of references with phone numbers.
- 4) Your name, address, email and phone number where I can contact you.

Thank You and Good Medicine, Heyoka
